

Installing the Keka App

If you are a Mac user, you will need to install the Keka app to extract your Payroll4Construction documents that you download from your web reports (files.payroll4construction.com). Once Keka is installed, you will use it to open and view your downloaded files.

1. Download the Keka app by clicking [here](#).
 - Download the most recent version of Keka.

2. Install Keka.

Note: This document contains links to files hosted on third-party sites not controlled or operated by Payroll4Construction. Payroll4Construction does not warrant that these sites, files, or the servers hosting them are free of defects, viruses, or harmful code or that use of these files will be uninterrupted or error-free. Before downloading files from the internet, you should always take appropriate precautions, including the use of up-to-date firewall and antivirus software.
